How can my parents help at home?

When practising key recall facts it is important to do so little but often. In order for your child to progress in Maths in Years 5/6, it is essential that they are able to quickly recall their times tables up to 12x12, along with their corresponding division facts.

There will be activities related to this key fact uploaded onto the Maths page on the GSA website. These will include worksheets and websites. Try doing some of these at home. Your child will be tested weekly on this key fact so it is important to practice it at home.

Practise your times tables using the different game modes on Times Tables Rock Stars.
