

## I can recall key conversions between fractions, decimals and percentages

Learning these key conversions between fractions, decimals and percentages will free up space in your brain for the methods to perform more complex conversions.

### How can my parents help at home?

When learning key recall facts it is important to do so little but often.

There will be activities related to this key fact uploaded onto the Maths page on the GSA website. These will include worksheets and websites. Try doing some of these at home. Your child will be tested regularly on this key fact so it is important to practice it at home.
