

# Halves and Doubles

Halves and doubles are opposites of each other. If we know half of 10 is 5, then we know that the double of 5 is 10!

$$3 + 3 = 6$$

$$\text{half of } 6 = 3$$

$$4 + 4 = \square$$

$$\text{half of } 8 = \square$$

$$5 + \square = \square$$

$$\text{half of } 10 = \square$$

$$\square + \square = \square$$

$$\text{half of } \square = \square$$

$$\square + \square = \square$$

$$\text{half of } \square = \square$$

$$\square + \square = \square$$

$$\text{half of } \square = \square$$
